

UNION COURSES

COURSE BRIEF

1. **Course Title:** Monitoring, Evaluation and Learning for Global Health Projects
2. **Dates:** 3 to 7 December 2019
3. **Location:** Singapore
4. **Language:** English
5. **Number of participants (Maximum):** 25
6. **Introduction**
The Monitoring, Evaluation and Learning (MEL) course presents different steps of the MEL process and focuses global health projects. It includes amongst other topics the development of indicators and targets; data collection, analysis and using the data for learning and decision making; communicating the findings of the MEL process; and evaluation. The course also includes assessment of advocacy efforts.
7. **Target audience**
This course is designed for middle- to senior-level managers working in public health from national, provincial government or international and non-governmental organisations, who are responsible for project management, its various administrative aspects and donor communications for implementation of health programmes.
8. **Objectives**
The participants will learn to develop indicators and targets; to develop data collections tools and analyse the collected data; to draw lessons learnt from the data and use the information for decision-making; and to communicate the findings to others. The facilitators use a combination of teaching methods to reach these objectives encouraging the participants to participate actively.
9. **Faculty**
Miranda Brouwer
Irina Berezhnova
10. **Continuing Education Credits**
IMDP participants are eligible to earn continuing education units (CEU) and continuing medical education (CME). The IMDP is accredited both by the International Association for Continuing Education and Training (IACET) and the European Board for Accreditation in Pneumology (EBAP).

11. What costs will be required to participate in the course

Course fee: 1,650 USD

Course fee includes tuition, training material, lunch and two tea breaks.
