ON-REQUEST AND TAILORED COURSES CUSTOM COURSES TAILORED SPECIFICALLY TO YOUR TRAINING NEEDS

The Union faculty and staff are ready to help you design courses and curriculum to meet your specific training needs. With expertise in the clinical, programmatic and organisational management of diseases, our team has designed programmes for some of the leading lung health organisations in the world. We specialise in programmes designed to reduce the burden of lung disease, improve overall lung health, and better manage tuberculosis (TB) in low-resource settings.

Training is available in English, French or Spanish and can be held online or at the location you choose. The custom-designed courses draw upon existing curriculum topics and incorporate additional expertise as needed.
